

Plastic Solar Landscaping Lights

Solar landscaping lighting is one of the best options when choosing the right lights for your home's exterior. They are easy to maintain, don't require any buried or loose wires, and best of all, they don't need any electricity from your home- they produce their own.

Well-executed solar landscaping lights help to soften the hard edges of your driveway, paths, and foundation all while improving the style of your home and its aesthetic appeal. They can be placed just about anywhere you want. Stairs, decks, railings, pools, patios, and posts are all good examples of places where you might want to have your solar lights installed.

Features

- Not only light up and decorate your garden and lawn, also saves electricity.
- Silicon crystalline solar panels keep the light charged and ready for use.
- No wire and low voltage, elegant in design and safe for use
- Good lamps with optional color LEDs
Rechargeable Ni-CD/Ni-MH battery.
- The Solar Light turns on automatically.
Daily use & Emergency Use: Fully charged by sunlight, 8-12 hours of lighting at night.
- Fast and easy to install

Specifications		
ITEM	TECHNICAL DESCRIPTION	LIFE
Work Condition	◆ Operating temperature: From -25°C to 50°C	
	◆ Operating Voltage: 5V	
	◆ Wind rate: 96km/h	
	◆ Water resistance: IP54	
	◆ Lighting Time: Continuous working for 8 hours / day and as well as 1 days for overcast and rainy days.	
Solar Panel	◆ 0.15Wp (Monocrystalline/ Polycrystalline Silicon)	2 years
Light Source	◆ LED power: 0.05W	100,000hours
	◆ LED brightness: 50mLux	
	◆ LED color temperature: 6000-7000K (Sun color)	
Frame Material	◆ Frame Size: 20×14×60cm	20 years
	◆ Material: PV plastic	
Battery	◆ 4.8V 150mH	2 years
	◆ Maintenance-free Ni-Cd or Ni-MH	
Controller	◆ 4.8V 200mA DC	5 years
	◆ CDS controller	

Delivery
