

Solar Floating Lights

Now you can use the solar technology to create a rainbow of color in your pool at night. As your solar lights float all day in your pool they collect and store electricity in their rechargeable batteries to give off a rainbow of color each evening. The built-in LED bulbs automatically turn on at dusk and constantly change color from green to red, blue to orange, purple to blue and white. They will show their colors for up to 12 hours and the advanced rechargeable batteries will last
