

Solar Address Lights

Our Solar Address Light feature 4-inch tall digits that are highly visible both day and night. The built-in light sensor activates the illumination when darkness descends and turns the light off again after the sun rises. This affordable Solar Address Light will also add a little style to your front lawn.

Because of the passive (solar) energy source, this light requires no wires or electrical cords. You can choose to mount it on the stake provided or to any surface such as; mailboxes, walls, and posts. Rest assured that the visibility this address light offers will increase security and provide easier and faster location of your home for guests and emergency personnel.
